No 178

GOVERNOR GENERAL

WILL ATTEND INAUGURALS

New Deputy Minister of Railways Takes Office—Cabinet to Meet Again on Friday

Ottawa, August 2.—Balfour, the new Deputy Minister of Railways, took hold today. The report by cable that the Governor-General has been made commander-in-chief of Canadian forces does not make any change in the law. Under the old militia act it was set forth as follows: "The command shall be vested in the Queen and shall be exercised and administered by Her Majesty personally or by the Governor-General as her representative." The new militia act leaves out the word "personally" and it now reads as follows: "The command shall be vested in the King and shall be exercised and administered by His Majesty or by the Governor-General as his representative." An order was recently passed by the Dominion Government placing the Governor-General in command of the Royal North-West Mounted Police. This is in view of the fact that the Governor intends to go to the North-West to attend the ceremonies of creating the new provinces there. Sir Wilfrid Laurier has returned to the city and will wait the meeting of the Cabinet for Friday and Saturday morning and then will leave for Athabasca.

PEACE ENVOYS ARRIVE

New York, August 3.—Sergius de Witte, the Czar's peace plenipotentiary has arrived here.

Vancouver, August 3.—M. Pokotilow, a Russian peace envoy arrived by the Empress of Japan and left immediately by the C. P. R. for Washington.

THE CZAR IS RESOLUTE

St. Petersburg, August 1.—Emperor Nicholas' martial message to the Orenburg clergy in which he expressed his determination never to conclude a peace dishonorable to Russia or unworthy of her greatness, and which was gazetted, is printed in every Russian paper today. It has struck a responsive chord in many quarters, even among the friends of peace.

The merchants of Moscow, who are largely old believers, and who control the wealth of the nation, are sending an answer to Gen. Livovitch to express confidence that the army will defend Russia's honor and that a humiliating peace will not be made. In significant connection with the peace conference is the meeting of the emperor's chosen counselors, 22 in number, when will be held tomorrow to pass their verdict on the national assembly project. The emperor wishes to reach a conclusion before August 12, the birthday anniversary of Grand Duke Alexis Nicholasvitch, heir to the throne, and a manifesto generally is expected on that day. The promulgation of an acceptable reform project would make the acceptance of the decision of the peace conference much easier. It is understood that the elections for members for the proposed national assembly will be held on October 14, and that the first meeting of the assembly will be held in St. Petersburg on November 14. The emperor has the right to prorogue or dissolve the assembly, as well as to determine the duration of the session.

The national assembly will be entitled to review not only all government bills, but also provisional regulations of the budget, credits, cession of state property and the formation of companies requiring exceptional privileges.

A bill rejected by both the council of the empire and the assembly will be referred back for revision to the minister responsible for its introduction. Bills approved by both bodies will be submitted to the emperor with a statement of considerations which actuated both bodies in passing them. With reference to the right of interpellation the members will be entitled to bring the matter of infraction of the law to the attention of the ministers and to ask explanations, but the request must be signed by thirty members.

If the assembly is not satisfied with the answers the questions may be submitted to the emperor.

BASEBALL TO-NIGHT

The baseball teams of the Methodist and Presbyterian churches play on the Second street grounds this evening.

PROVINCIAL CONVENTION

IS HIGHLY SUCCESSFUL

Liberal Representatives From Every Alberta Constituency Gather in Calgary to Discuss Provincial Affairs

Calgary, August 3.—The first provincial Liberal convention opened here last night and promises to be in every way successful. The credentials committee met last night. There are one hundred and eighty delegates in attendance, every constituency being represented. Dr. DeVeber was elected temporary chairman and C. A. Stewart of Calgary, secretary. The committee on resolutions is in session this morning. A committee on organization was appointed consisting of one delegate from each constituency. The visitors are being entertained to a banquet tonight by the Calgary Liberals.

CANDIDATE SELECTED

Star, Alta, August 3.—Mr. McCausley, ex-M.L.A., was the unanimous choice of the Liberal convention as candidate for the Provincial Legislature in the Vermilion constituency.

Wherever There's a

BABY

There will be need for many things which we can supply. Infants' Foods—the very best quality, fresh and pure. Teething, Nursing and Baby Toilet Goods of all kinds.

We spend much time and care in selecting things for baby, and we feel sure every mother in the city will enjoy examining our stocks and will in every case find exactly what she desires.

MORROW'S DRUG STORE

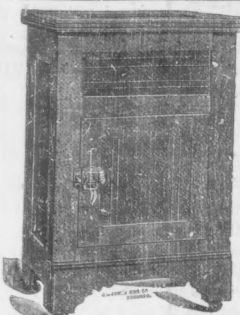

MAKING ONE'S TOILET is a far pleasanter proposition if all the appointments are handsome and convenient. You can have them that way if you say the word. But say it to us.

WE ARE PLUMBERS who make a specialty of good work. We will make your bath or toilet room fit for a king or queen. Sanitary, too; perfectly so. And, as usual, our bill will be so small that you'll doubt our being real plumbers. But we are. We are sole agents for Sutton Germ Proof fitters.

THE OLIVER INCIDENT

(Calgary Alberta)

The Liberals of Calgary, through their secretary, S. L. Jones, after considerable provocation, denied the absurd and slanderous fabrication manufactured by the Calgary Herald, which reflects upon Frank Oliver, accusing that gentleman of deceiving the Liberals of this city by making promises to them which he did not keep.

To this official denial the Calgary Herald replies that Mr. Jones is a very young man and that Liberals old enough to be his father have confided in the sympathetic and extremely honorable and unusually popular editor of the Calgary Herald and have told to him the story of the base deception of which the minister of the interior has been guilty.

The age of the secretary of the Liberal Association has little to do with the case. The question at issue is one of plain ordinary fact, and Mr. Jones is quite perfect in hearing and quite competent to truthfully tell what he hears. That is all there is about it. The only evidence of immaturity shown by the secretary, was to believe for a minute that the Calgary Herald would go to him or any person else in an official position, or to any person who should have the rights of things, to verify the untruths which it makes a business of manufacturing daily. That may be some evidence of youthfulness and inexperience, but it is a mistake that may be pardoned.

But there is a very easy way out of this entire affair. Mr. Jones, the official representative of the Liberals, has officially denied that Frank Oliver made any promises to the Liberals of Calgary which he did not fulfill. The Calgary Herald has replied that a number of men who were vigorous in the battle of Liberalism before Mr. Jones' birth, sweeping on the shoulder of its editor, have moaned out their voices at the base deception they had experienced.

Let the Herald quote the Liberals who have been so affected. Surely a man who is so lost to all sense of wisdom, as to go into a tiger's den to tell his troubles will not hesitate to make them public. If there is any Liberal who considers that Frank Oliver lied to him, let him come forth and denounce the liar.

If the Herald does not now make good and get statements from some of these men, the general public can judge of the baseness of the lie that the Herald has manufactured, and can judge of the amount of dependence that should be placed in any of the statements which it in this way produces daily.

Let the Herald make good or acknowledge its own deception. Let them produce one Liberal who heard Mr. Oliver make use of one word of promise which he did not fulfill to the very letter.

NORTHWEST LIBERALS
(Toronto Globe)

Liberals all over the Dominion will watch with sympathetic interest the proceedings of the approaching Liberal conventions of Alberta and Saskatchewan. The Liberals of those provinces are acting wisely in the course they are taking. It would be the neglect of folly on their part to remain dissatisfied and unorganized, because that would be the surest way to throw the management of public affairs into the hands of those who are normally their political opponents. They may be quite sure that there will be an organization of Conservatives, and the best and fairest way to meet it is to have a similar one of their own.

The outcome of the deliberations of both parties may be a determination to form a non-partisan administration, but it may be the reverse. On this point outsiders would be acting impudently to offer any advice. The people of the Northwest are mostly from the older Provinces, and they may safely be trusted to look after their own political affairs. It

must be obvious to the Liberals, however, that even if there is to be a coalition of parties for the time, they will be more likely to exercise their legitimate influence on provincial legislation and administration by first learning to know each other and to co-operate for the purpose of securing pure and efficient government. On the other hand, if there is to be a general consensus in favor of entrusting the management of affairs to one political party, then the Liberals, having quite naturally more confidence in themselves than in their opponents, will be in all the better position to go into election campaigns prepared to exert their full strength to win.

Much more important, however, than the effect of organization on their prospects as a party is its effect on the future progress of the Northwest as a whole. The rate and character of that progress depends very much on the earnestness, vigor, persistence, and intelligence with which political problems are faced and handled. Mistakes must be looked for as a matter of course, but these are likely to be fewer and less serious than they would otherwise be if both Liberals and Conservatives discuss the situation beforehand in party conventions. The matters requiring attention will thus be brought pointedly to the attention of the people and will appear in somewhat correct perspective. Previous deliberations will tend to check rashness in trying sociological experiments, and the habit of looking at each side of a question that presents itself, when begun in party conventions, is not likely to be abandoned. This preliminary preparation need not and should not tend to engender serenity in political discussions; it is much more likely to promote sobriety of thought and amenity of tone in political controversies.

ALBERTA'S PROGRESS

(Special correspondence of Winnipeg Free Press.)

Red Deer, Alta., July 27.—"I can well recall my first trip from Calgary to Edmonton," said a knight of the grip the other day, "it is just six years ago now, since I made my first trip north, and a long and wearisome journey it seemed to me. A mixed train left for the northern capital three times a week, and even with that limited passenger service traffic was far from heavy. The train was a slow one and consumed a whole day in getting there. I fortified myself with magazines and light reading and with a deck of cards. It favored with company, played cards, poker or I alone indulged in solitaires. Anything in fact to relieve the tedium of the long journey. What we travelled over could have been very properly named the Great Lone Land, for I verily believe twelve houses could not have been counted between Calgary and Red Deer, and Red Deer itself has no resemblance to the Red Deer of today. About four stores and a score of houses constituted a full muster with of course a hotel. Trains going north or south stop half an hour for meals. To interview my customer, take his order, bolt my dinner and continue my journey, calling in again upon my customer when going south to make sure that nothing had been forgotten. I remember that I was always keeping one eye on the train through 'fear of getting left. It looked like a serious matter to me as it meant the loss of two days. Of course I could have gone shooting and fishing, but that is not business. Our firm had maintained their competition ever since this line had been opened and had two or three good accounts, but our business could scarcely be termed satisfactory. Expenses were exceedingly heavy and more than once the question of relinquishing our hold, and cutting this ground out, had almost been decided on. As the darkest hour comes before the dawn—so with this district. The few settlers that had been induced to come in could get next to nothing for their produce; butter and eggs were a drug on the market. The local merchants was offering only 8c. per dozen for eggs and from 12c. to 14c. for butter, but really did not want any, as it was very difficult to dispose of, there being no nearby market and freight rates were high. Ready money was then conspicuous by its absence, very little being in circulation; settlers lost heart, pulled out, and left the country.

"All through these depressing times our firm never let go as we had a good deal of paper, we could not very well do anything else, so we continued making the trip and seeing our customers once a year and that sufficed—sufficient it had been from the opening of this line until the dawning of this brighter day. The recent in-pouring of settlers and all that this movement means that every line of business had felt its magic touch. The dark clouds of depression had been dispelled, the lowering skies had cleared and sunny Alberta had become in more ways than one, a land of brightest sunshine.

"The changes along the line have been so rapid and complete that one is almost dazed. One feels as if awakened from a Rip Van Winkle nap and that long years must have transpired to have effected such a remarkable change. We have seen the fairies make amazing changes at the pantomime, but their spectacular transformation waltzes were nothing to this. The mixed train is a thing of the past. A daily mail train with parlor car attached now contributes to the comfort of those who in travelling, set value upon luxury and ease, and three times a week an extra passenger train has been found necessary to relieve the pressure of the heavy traffic. From present appearance two daily trains are required as there is ample traffic to keep them going. As for freight trains they seemed to be working up and down the branch night and day. I don't seem to get a whole night's rest as when doing their shunting, an unnecessary amount of whistling is indulged in, but I suppose these trials are inseparable from a busy bustling period like the present—even the sleeping times has its disadvantages.

"What has all this growing development meant to our firm in the last place it has led to a very heavy initial outlay. The building of a fine new warehouse in Calgary and the maintenance of a manager and staff. As for myself I have had to make my home in Calgary and now instead of the annual trips I cover the ground no less than once a month, and more business is obtained by far every month than used to be secured once in twelve. Yes, the outlook is

very encouraging. The farmers are all going in for growing winter wheat and conditions seem very favorable for its production. The Government creameries have been of the greatest benefit to the settlers, providing a means for ready cash, the creameries are an unqualified success, so much so that many advocates are now found that are in favor of the principle being extended to abattoirs. A proper system of cold storage where the carcass would be chilled and with suitable refrigerator cars for conveyance to the seaboard with a fast line of steamers properly equipped there would be no need for further agitation about the embargo on our cattle, as in a short time we could command the market. The farmer would be enabled to get a fair price for his steers, he would remain no longer at the mercy of one or two dealers, but would enjoy all the advantages that arise from competition. Alberta has hitherto been known as a stock country but the successful growing of winter wheat marks a change, a departure from its assigned place; her insignia, the cowboy and a bunch of steers, the devil-may-care creature, his 'roping steers' and 'broncho busting', with all the romance of a reputed wild and careless life, has now reached the end of its tether. A sheaf of wheat, of winter wheat, and the man with the hoe, light binder, etc., making the land to give of her increase, is now the symbol of this province.

"Alberta has a large winter wheat area. On this continent winter wheat production has passed the experimental stage and this year no less than two million bushels will be harvested. This is quite a bound from last year. This is worth remarking as it is an epoch making time, this province being regarded as a grazing or as a spring wheat country only. It requires no great effort of the mind or prophetic instinct, at the present stage of western development to people these boundless plains with teeming millions. What we see now is but the van of a vast army, in increasing numbers they are marching hither, coming to make a home, raise a family, do their trading, for our country—Canada, dear Canada."

THE NEWS OF THE DAY

IN CONDENSED DESPATCHES

Brief items from many sources tell the story of the day's events.

TELEGRAPHERS GO OUT.

St. Paul, Minn., August 3.—Over 1,400 telegraphers are out on strike and with the exception of transcontinental passenger trains, the Great Northern and Northern Pacific are tied up.

EX-CANDIDATE DYING

Montreal, August 3.—Byron O. Lott, the defeated Liberal candidate in North Hastings, an important witness in the ballot box cases is dying of typhoid in California. There is little hope for his recovery.

CALGARY MAN CHOSEN

Winnipeg, August 3.—At the election of officers of the Grand Priory of Knights Templar, G. N. Brown, of Calgary, was elected provincial grand prior for the district of Manitoba.

YOUTHFUL EMBEZZLER.

New York, August 3.—F. W. Story, 22 years old, clerk at the Montreal office of the Dominion Express Co. was arrested yesterday for stealing \$4000 from the company, and taken back.

BALL GAMES.

Winnipeg, August 3.—Superior 7, Fargo 1; Crookston 8, Duluth 1. The Maroons went down to Killarney and played the local team there.

ICELANDERS CELEBRATE

Winnipeg, August 3.—Icelanders celebrated their national holiday in Elm Park yesterday. B. L. Baldwin, M.P.P., in the course of a speech said the Icelanders on this continent are rich enough to buy Iceland and have a big surplus over.

WANT TO JOIN WINNIPEG.

Winnipeg, August 3.—The Provincial Government has erected the village of Elmwood into a town. An uproarious meeting of residents passed a condemnatory resolution on the government. They want to be annexed to Winnipeg.

WILLIAM FAVORS CHARLES.

Copenhagen, August 3.—Prince Charles visited the Emperor of Germany, who promised that he would support Charles' claim to the throne of Norway.

THE YELLOW JACK

New Orleans, August 3.—The total yellow fever cases to date number 409 and deaths 80.

LABOR RIOT IN MONTREAL.

Montreal, August 3.—A lively fight occurred yesterday at Grosvenor Plais when striking carpenters attacked non-union men. A strong body of police charged the strikers and used their batons freely. There was a number of broken heads. Further trouble is expected as the bricklayers refuse to work under police guard.

The News in Brief

Undesirable immigrants from all parts of Europe are pouring into America, according to United States Commissioner Waterman at an increased rate. Forty-eight thousand immigrants arrived during July, against 36,000 in July of last year. More than 1,000 were deported during July, as against 645 in July last year.

The following are the principal points of an electoral system approved by the Russian council of ministers for the proposed national assembly. The aim has been to inaugurate a scheme eliminating as far as possible class representations. The only classes excluded from the franchise are soldiers, persons under the age of twenty-five years, foreigners, women, and vice governors of provinces, prefects and police authorities, nomads and persons deprived of civil rights. For St. Petersburg, Moscow and eighty other towns, these members will be elected by electors of the first degree, comprising owners of land and house property exceeding 3,000 roubles in value, the electors in the case of St. Petersburg and Moscow and 500 other towns to include also the holders on industrial patents and paying specified taxes, with no distinction as to relation. For the provinces a similar system of colleges will be elected by voters of three categories, namely land owners, electors of other towns than before mentioned, large towns and cantonal representation of peasants. Here also property qualifications are required of \$750 and similar tax qualifications. The elections will be by secret ballot and an absolute majority is required.

The meeting between Emperor William of Germany and King Christian at Copenhagen was of a quiet and informal character. The forts and warships fired royal salutes on the arrival of the Imperial yacht. King Christian was attired in the uniform of a German uhlan and, in company with the crown prince and the other princes, Premier Christensen, and Foreign Minister Count Løvén, welcomed the emperor, who wore the uniform of a Danish admiral. There was no formal reception. The monarch embraced and Emperor Christian conveyed to King Christian the greetings of Emperor Nicholas, of Russia. The party immediately entered carriages and drove to the Bernstorff Castle, cheered by the crowds. Throughout the drive the emperor was in earnest conversation with the king and took little notice of the demonstrations of the populace.

MISCELLANEOUS

TENDERS.

Sealed tenders to cover all works, except heating and plumbing, will be received up to August 10th, 1905, at the office of the chief engineer, Canadian Northern Railway, Winnipeg, for the erection and completion of a brick and stone station building to be erected at Edmonton for the Canadian Northern Railway Company. Also tenders for a ten stall engine house at Edmonton and frame station building at Fort Saskatchewan. Plans and specifications may be seen at the office of the chief engineer, Winnipeg, Man., or at the office of the superintendent, Canadian Northern Railway, Edmonton. The lowest or any tender not necessarily accepted.

FARM LAND.

N.E. 1-4 of Sec. 4, Tp. 55 R.18, nearly all clear of brush close to C.N.R., land slightly rolling, price \$50 per acre, \$250.00 cash, balance \$150.00 per year. Interest 8 per cent.

N.E. 1-4 of Sec. 25, Tp. 54, R. 26. This is a choice piece of land with very little brush on it, fairly level, would make a fine farm. \$12.00 per acre.

S. 1-2 of Section 31 Tp. 51 R. 1. Nearly all clear except along the West side, soil black loam, can nearly all be broken, 10 acres of spruce timber in one corner, a creek runs along the north line, a splendid half section of land, \$5.50 per acre, about half cash and assume a C. P. R. contract in yearly payments for the balance. Interest 8 per cent.

S. E. 1-4 of Sec. 3 Tp. 57 R.27. Some small brush on part of this land slightly rolling, soil black loam, sub-soil clay, at \$5.50 per acre, about half cash, balance on C. P. R. contract. Six per cent interest.

S. 1-2 of Sec. 30 Tp. 53 R.23, 366 acres on river bank, 100 acres broken, all fenced, frame house, worth \$1200.00, log barn and cow shed. Implement sheds, 70 acres ready to break, \$25.00 per acre, \$2000.00 cash and assume a mortgage of \$2000.00. Balance may remain for two years. Interest 8 per cent.

800 acres fourteen miles north of Edmonton, 300 acres under cultivation, all fenced with wire, good frame buildings, soil black loam, an excellent farm, \$25.00 per acre, about one half cash, balance on easy terms with interest at 7 per cent.

LOCAL

Preparations are being made today at the landing below the bridge to float down the timber for the Fort Saskatchewan bridge.

The police visited several houses in the outskirts of the city last night and the inmates and guests contributed \$245 to the city funds this morning.

A Helena, Mont., dispatch says that 2,500 head of sheep belonging to John McLaren, of Havre, Mont., have been seized by the Canadian Mounted Police, and are held for double duty. The duty amounts to \$2.100. Owing to better range conditions in Canada, the sheep men, it is presumed, have let their stock stray beyond the international boundary. The police learned of this and have increased their force and are preparing for still further seizures.

Calgary Herald: Another Alberta polo team will journey east this fall to play the easterners how the game is played on the prairie. High River will send down a fast quartette, comprising G. C. Ross, Harry Robertson, W. B. Norton, and either Hon. F. A. Macnaughten or H. Ward. These fast players will take down a bunch of about 20 of the fastest ponies in the district, and no doubt they will be picked up at good figures by eastern enthusiasts. Arrangements have been made for five games at Toronto, and Montreal, Buffalo and Rochester will also have an opportunity of seeing some of the fastest players in the west in the game. It is proposed to make the trip east about the first of next month.

PERSONAL

A. W. Taylor is in Calgary.

C. W. Mathers left this morning for Vancouver.

F. F. Tims returned yesterday from Fort Saskatchewan.

Mr. and Mrs. Storey returned from Winnipeg yesterday.

W. Barnes, local engineer of the C.N.R. is in the city.

Jas. Bush came in yesterday from his ranch at the McLeod river.

Mr. and Mrs. Geo. Voyer returned yesterday from a trip to the east.

Mr. Percy Card, of Berlin, Ont., is visiting his friend, Wm. J. Westman.

M. McGrimmon returned yesterday from his grading camp east of the Fort.

D. J. Stewart, inspector of the Insurance Company of North America is in town.

Mr. and Mrs. A. E. Jackson return from Winnipeg the latter part of the week.

W. Neill who has been relieving Geo. Voyer, C.P.R. agent here left this afternoon for Moose Jaw.

W. Graham who has been relieving T. J. McNamara, Government telegraph agent here returns to the Fort on Friday.

Miss C. Lawrence of Vermillion, Peace River, arrived in town Wednesday evening, where she intends to remain for a few weeks, visiting her many friends in and around the city.

THE PROPOSED STATION SITE

Edmonton, August 3, 1905.
Dear Sir: Tenders are being called for the building of the C.N.R. station. Every rate-payer rejoices at this happy news, but it is not unfortunate that the station should be placed so far east!

First street will be our main road and great thoroughfare, but it will be utterly spoiled if the station is erected too close to it and tracks are laid over it. At all hours of the day we will be exposed to have some car blocking that street. The C.N.R. has been given a good strip of land over which we have no right-of-way from Fifteenth street, east. At least First street should remain free and clear. It is the only clear street we have running from South to North in that vicinity and we should jealously retain it. It is time yet for the citizens to take the matter up and agitate to have the station built away opposite the Second or the third block in order to leave sufficient ground between the station and First street, and keep the latter in its entirety for the use of the city. No person can suffer thereby and such a change if made will be beneficial to everybody.

Yours truly,
A CITIZEN.

BIRTH

HARRISON—At Edmonton, on Aug. 2nd, to Mr. and Mrs. A. E. Harrison a daughter.

The Allan and Donaldson steamship lines, after a month of rate cutting, come to terms today with regard to second and third class trans-Atlantic passenger tickets. The second class rate was restored to \$35 and the third class rate to \$25.

The members of the Paris municipal government have accepted an invitation to visit London in October as guests of the London county council.

To Ladies and Mothers

Mrs. Astley will open in the Deerpaddock Block opposite the H. B. Co's store on Saturday July 15th. Orders for bridal outfits, housekeepers outfits and every description of plain sewing will be taken and promptly executed on the premises, after July 15th, opening day.

The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour, if its in good condition. It will move 3,558 miles in a year and requires less than one tenth of a drop of oil to make it run. But it needs that little body. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay you and satisfy you.

An Advt. in the "BULLETIN."

WESTERN RAILWAY CONSTRUCTION

Winnipeg Tribune: New branches and extension of railways equivalent to about one-third of the whole Canadian Northern system will be taken over in the west in time for the wheat movement. The situation marks an epoch in railway building in the Canadian Northwest and is deeply significant. It is the strongest possible indication of the expectations of the railways for the biggest crop yet for that has ever been handed out of the wheat zone.

The determination of the C. P. R. to push the construction of proposed lines and begin the construction of new ones was announced this morning from the second vice-president's office, after Mr. Whyte's return from his conference with the other directors at Montreal.

Work will be completed on branches where it had been expected it would fit on into another season and two entirely new branches will be begun on the Canadian Pacific system in the west. The new branches have been in projection for some time but they were supposed to be dead issues for the present season at least. They are the Moose Jaw extension towards the Elbow of the Saskatchewan and the proposed line from Gravel to Broomfield. Instead of only twenty-five miles being completed on the Wetaskiwin and Lacombe branches, as had been expected, the entire 50 miles surveyed will be completed on each, and sixty miles of the Wolsley-Reston branch will be laid and made ready for operation.

The villages to be placed in operation were given as follows: Wetaskiwin branch, 50 miles; Lacombe branch, 50 miles; Wolsley-Reston branch, 50 miles, of which 30 are now graded; Moose Jaw branch, 15 miles; Gravel to Broomfield, 29 miles; Kirkella extension, Lipton to Strassburg, 45 miles; Telford branch, 10 miles at least; Brookdale to Varcoe, 18 miles. All these lines will handle wheat out of the country this year.

The Canadian Northern, from latest advice, will be ready to take over the main line from North Battleford to Edmonton, a distance of 254 miles, about October 15, and at the same time the operating department will take charge of the piece between North Battleford and Humboldt, making the total taken over really 499 miles and giving the Canadian Northern a main line from Port Arthur to Edmonton, of 1,264 miles. The C.N.R. will also have the Rossburn extension to Clanwilliam, a distance of 80 miles, ready for the wheat rush, and also the piece between Carberry Junction and Brandon Junction 27 miles long, which will give it a line paralleling the main line of the C.P.R. to the wheat city and fifty miles shorter than the present route of the C. N. R. via Morris. The other branch to be taken over will be nine-and-a-half miles long running from Thunder Hill to Swan River. The entire mileage to be taken over by both lines runs over 600 miles, or over 600, if the entire stretch of the C. N. R. from Humboldt to Edmonton is considered.

An official on the staff of the second vice-president, in commenting on this unprecedented railway activity at this season of the year said: "The people of the west do not seem to be aware of the grand crop that will be harvested this year, unless something extraordinary happens. There has never been anything like it before. It is seldom that we have had a crop that has not had spots somewhere, but this year it is fine all over. The great prospects do not seem to arouse the same degree of enthusiasm this year because the people are getting accustomed to it. The railways are realizing the vast volume of wheat that will have to be carried out of the country this fall and they are straining every nerve and every dollar to get the country as fully equipped as possible to serve this demand."

DEED.

Deed—Edmonton, August 2, instant see of Mr. and Mrs. W. A. Dey.

WINNIPEG MARKETS.

From the Commercial—Wheat—today's prices are—No. 1 northern, \$1.09 1-4; 3 northern, \$1.04; No. 4 extra, 75 1-4; No. 4 wheat, 74 1-2; No. 5 wheat, 64c, spot or June delivery. On the option market July closed, \$1.09 1-4; Oct., \$1.12; all prices are for in store, Fort William or Port Arthur.

Ross Bros. Limited

ROSS BROS. Limited, are the Sole Agents in Edmonton for the Celebrated

Peters' Pump

Peters' Double Cylinder Force Pumps

The annexed cut represents our Double Cylinder Force Pump. This is positively the easiest working and most durable pump on the market. Its capacity is far greater than any other pump; and for a stock pump it has no equal. This pump is constructed with two solid brass cylinders and each one working independently, discharge their full capacity at every upward and downward stroke of the handle; therefore our pump will discharge twice as much water as any other pump with half the amount of labor. Its ease in operating is based on the fact that it has two rods, one on each side of the pipe, and the one balancing the other, overcomes all the hard labor in pumping water. A four-year-old child can easily operate the pump at a depth of 50 feet. Its durability is far superior to any other pump for the following reasons:

- 1 It has solid brass cylinders which do not wear out the leathers.
- 2 The cylinders being at the bottom of the well never lose their priming.
- 3 It has chilled valve seats which neither rust nor wear.
- 4 The leathers used for plungers and check valves is the very best obtainable.
- 5 It has no stuffing boxes.
- 6 The cylinders are stationary, working nothing but the plunger holes.
- 7 It having double the capacity of any other pump, requires but half the labor.
- 8 The pipes and rods used are all galvanized.

This pump can be fitted for six-inch bored wells with our special double cylinder.

We keep this pump in three different sizes as follows: 3 1/2 in. cylinders for 1 1/2 in. pipe, for stock wells up to 25 feet deep. 3 in. cylinders for 1 1/4 in. pipe, for stock wells up to 35 feet deep. 2 1/2 in. cylinder for 1 1/4 in. pipe, for stock wells up to 60 feet.

The capacity of our double cylinder pump is as follows: 3 1/2 in. double cylinders, 1500 Gal. per hour, 3 in. double cylinders, 1000 Gal. per hour, 2 1/2 in. double cylinder, 700 Gal. per hour.

In Woven Wire Fencing we handle the well known LAMB FENCING.

This Fence is made from the best hard steel galvanized wire, and is kept in 20, 30, and 40 roll sizes in 24", 30", and 50" high. Any person can stretch this wire into place, and its staying qualities will withstand the greatest strain that can be brought against it. In its weaving it is expanded to its greatest tension, consequently it will not contract or expand on the posts. We also have it in ornamental style for front fences, gates to match.

Not expensive, though best in quality. Absolutely weather-proof, always ready for instant use. Requires no paint—nothing but a hammer to lay it. Tin caps, nails and cement for seams furnished without extra charge.

Write for illustrated booklet, gladly mailed upon request.

24 SECOND ST., SAN FRANCISCO, CAL.

OUR

MALTHOID ROOFING

is giving splendid satisfaction wherever used.

It is easily put on. Is a sure water shedder, and anyone can put it on. No expensive tools needed, just a hammer, that's all, as the nails, caps and cement go with every roll. It is put up in rolls of two hundred square feet (2 squares to the roll) and we keep it in one and two ply. Some of the best buildings in Edmonton are covered with this roofing.

Sole Agents for Alberta ROSS BROS. Limited.

Ross Bros. Ltd.

WHITE WHALE LAKE

This district has wonderful possibilities as a fruit district. All kinds of small fruits grow wild in profusion; strawberries, raspberries, Saskatoons, currants, blueberries, etc., etc., and it is the firm belief of some of our settlers that apples, pears and plums can also be successfully grown here. Time and experimenting alone will settle the certainty of this.

The pea-vine and grasses even on the hill tops reach from the knees to the hips and stock looks well. One settler from five cows makes 30 lbs. of butter per week, besides supplying fourteen persons with all the fresh milk and cream they desire. Possibly others excel this record. This is an ideal dairy district.

One of our settlers in digging a well ran across a coal seam and stopped. Another settler went through the seam, 3 feet 4 inches thick, and a few feet below found delicious water. The coal burns very freely.

On the Indian Reserve the roads have been put in excellent condition. Possibly this word of commendation for the Indians and their farm instructor may be regarded as somewhat belated.

The question of a new post office in Township 53, Range 3, seems to be still unsettled.

The new Wabamun school district is asking for authority to borrow \$500 for the building of a new school house.

An effort is being made to get a new trail opened up through 53, 3, 2 and 1, to connect with Glory Hills and thus secure a shorter route to Edmonton.

Our whitefish still supply the tables of Edmonton and very fine eating they certainly are.

Mr. F. J. Franney a few days ago brought home his bride, a young lady from Coburg, Ont. Heartly congratulations and best wishes. Let us say to the other bachelors, "Go thou and do likewise."

Tenders are called for a new postal route bi-weekly from Mewasin P. O. to Tomahawk P. O., a new office up the river, about thirty miles.

White Whale Lake, July 31.

Canada's Wealth in the Yukon

While wealth in the form of wheat is being produced on the prairies to the tune of \$100,000,000 in a year our fellow-citizens in the Yukon are contributing \$10,000,000 per annum in gold to the financial strength of the Dominion. This is a large output for so small a country. But the region has done better. When the rush was on the quantity of gold obtained was as high as \$20,000,000 a year in value. The change is the result not of any failure in the crop, but of the movement of population. It is estimated by a mining authority who has reported upon the territory that it will take one hundred and forty-five years to wash out the gold-yielding gravel now in sight.

The gold, as related by Dr. Thompson, M.P., in his recent speech in Parliament, is found along the creeks. The Yukon is a network of small streams, running along the hills and making for the larger bodies of water. These streams in the course of centuries, have carried down from the hills vast quantities of gravel, along with which gold is mixed. The gravel has formed a bed or bench along the side of the creek, and here the miner operates. At the present time placer mining, of the washing of gravel, is the chief industry. But it is clear that the gold thus secured must have come from a central source. It was in the rock before it was forced down the creek to its present resting-place. Therefore, it is certain that there are quartz deposits in various parts of the district. These will be found some day, and then operations such as those in the Kootenays will be entered upon, with rich results.

The labor of the miner is not altogether what the far-away observer would expect it to be. Many of us suppose that, with the gold lying in the bed of the creek, all that the miner has to do is to run down to the shore in the morning and wash out a few hundred dollars' worth of nuggets before breakfast, the operation being repeated whenever our friend experiences a desire to be active. But this is a total misapprehension. The business is not so easy as that. Dr. Thompson in his Parliamentary speech, has told us what really happens. When the miner has selected his claim he is confronted with the fact that there is upon it a bed of loam which has to be removed in order that the gravel, in which the gold is found, may be reached. For a considerable depth, then, the min-

er has to dig. If it is winter time, the earth has to be thawed, and this process is accomplished through the building of large wood fires. When the loam is out of the way the gravel appears. Here, again, heat has to be applied in order to move the material.

In some cases the miner uses the wood fires on the gravel. He will thaw as far as he can, and then haul the gravel thus loosened to the surface, where it awaits the next operation. Men who are in better circumstances employ steam. The steam is generated, and is conducted by pipe to the gravel, into which the end of the pipe is sunk, with the aid of a drill. The escaping steam soon drives out the frost, and the gravel is removable. When an operator is particularly well off he will add a steam shovel to his plant, and thus haul out the material by wholesale. After the bed rock has been reached and the gravel is richer as it gets nearer the rock — the miner has to undertake engineering operations. He must follow the gravel under the unremoved earth, thus tunneling as far as he can.

All the gravel is brought to the surface and dumped ready for the next move. It takes the shape of huge conical mounds, of considerable height. Along a gold yielding creek there will be a series of mounds awaiting treatment. The next process is the washing or sorting. For this business long flumes, a foot square are provided. At the bottom of the flumes are nailed what are termed riffles, or cloths—pieces of wood or of iron—which catch the gold as it falls. Water is turned into the flumes, and as it courses down from end to end the gravel is thrown in. Seeing that the gold is heavier than the other material, it falls, and is caught in the cloths, while the gravel is carried away. When the water is turned off the miner learns what his luck has been. There may be a good deal of gold in the flume. On the other hand the yield may be small. If gold has been exhausted it will be found, to be in grains like flour, increasing in size to nuggets of the size of a pea.

Want Permanent Peace

New York, August 3. — Nazujico Ishikawa, editor of the Hachi Shimbun, of Tokio, one of the men officially accompanying Komura, the Japanese peace envoy, said today: "My people feel that this is now time for peace." First we must get Harbin and Vladivostok for unless we get them we fear that by and by we shall have to fight again. We must stop Russian ambition now, once for all. We don't wish to fight the Russians again, once peace has been concluded."

On the question of indemnity, Mr. Ishikawa said he thought the people will be satisfied with \$2,500,000,000. "Then Sakhalin must be ceded for two reasons he continued. "In the first place it was exchanged by Russia thirty years ago for the Chishima archipelago, but these other islands really belonged all the time to Japan and it was only because Japan was at that time afraid of Russia that the deal was assented to."

—The Chris Mathes Co. had one of the best audiences of the season at the rink last night. The play for this evening is the "Country Minister," a good comedy to which the company are said to do full justice. Spectacles will be put on. This play was very well received in the coast cities.

—While in town on Tuesday, Mr. C. E. MacPherson of the C. P. R. took up the claim of the Exhibition Association and granted a rebate on the transportation charges of the attraction company. He claimed that the trouble arose through a clerical mistake in the Winnipeg offices, and that the Association should have applied to the company before the fair for the special rates desired.

—Hibernian Times. The name Canadian is good enough for any one and satisfied with any one should be proud. The sooner we do away with this fool habit of calling ourselves French, Scotch, Irish or any other kind of Canadian the sooner we will gain and retain the respect of other nations and our own self respect and pride in our grand country.

—The weather has been quite warm in all districts with light scattered showers in Saskatchewan and moderate heavy rains in southern Manitoba and the Birtle district. In Manitoba the weather will be fine and decidedly warmer today and on Friday, with a few scattered thunderstorms. In Alberta and Saskatchewan the weather will be fine and decidedly warm today and Friday. A few scattered storms.

—J. H. Ashdown of Winnipeg, in an interview with an eastern paper said that Edmonton would become a snug distributing centre, and Calgary had also been heard from in the same sense, but neither of these rising places would ever, in the near or remote future, enter into competition with the city that would soon pass the 100,000 mark, and also, before many years, crowd up close to Montreal and Toronto.

—In another column a citizen writes regarding the proposed site of the C. N. R. station. It is understood that the site selected is only some fifty feet from First street and long trains standing at the platform would doubtless frequently extend across First street to the serious inconvenience of the traffic. It is understood that Mr. McLeod, the chief engineer of the C. N. R., has expressed willingness to alter the location if the citizens so desire. Prompt action is necessary if any is to be taken as the contract is to be let on August 10.

—Professor Cozad, whose dog and pony show is to appear here Saturday, is a trained of animals and understands their nature. "To be a successful trainer," said Mr. Cozad "one must study animals as one studies people. Their dispositions vary, some bright, others stupid, some mild, other fierce. They know the difference between trust and wrong. The whole subject is full of psychological interest. A puppy who is merely mischievous will never show up to you barking the photograph of his guilt in his hanging head and cowering tail. He will escape in triumph and be chastised at your disapproval. But the puppy who is a thief will be away to a dark corner with his treasure, and is only discovered by his outward manifestations of guilt. With our animal circus we have over 100 performing dogs alone. By constant association we know the habits of every one, and treat them according to their temperaments. Kindness and gentleness, approval when good, disapproval when perverse. The secret is to understand them."
